Password Reset Feature Testing

Manual Test Cases and Defect Report

Candidate: Kaleemuddin Mohammed

Role: Software Test Engineer

Objective: Create manual test cases and defect reports for a password reset feature.

Test Scope

- Forgot password link visibility and navigation
- Registered and unregistered email validation
- Empty field and invalid email format validation
- Reset link generation and expiry behavior
- New password and confirm password validation

Test Cases

TC ID	Scenario	Test Steps	Test Data	Expected Result	Actual Result	Status
PR-001	Forgot password link visible	Open login page and check Forgot Password link	Login page	Forgot Password link should be visible	As expected	Pass
PR-002	Forgot password navigation	Click Forgot Password link	Valid page URL	User should navigate to reset page	As expected	Pass
PR-003	Valid registered email	Enter registered email and submit	user@test.com	Reset link message should display	As expected	Pass
PR-004	Invalid email format	Enter invalid email and submit	abc.com	Validation message should display	As expected	Pass
PR-005	Empty email field	Keep email blank and submit	Blank	Required field validation should display	As expected	Pass
PR-006	Unregistered email	Enter unregistered email	unknown@test.com	Proper message should display without exposing account details	As expected	Pass
PR-007	Email with spaces	Enter email with leading/trailing spaces	user@test.com	System should trim spaces and validate	As expected	Pass
PR-008	Uppercase email	Enter registered email in uppercase	USER@TEST.COM	Email should be accepted case-insensitively	As expected	Pass
PR-009	Special characters in email	Enter email with invalid special characters	user@@test.com	Validation error should display	As expected	Pass
PR-010	Reset link received	Submit valid email and verify reset email	user@test.com	Reset email should be received	Sample evidence added	Pass
PR-011	Reset link opens page	Click reset link from email	Reset URL	Password creation page should open	As expected	Pass

PR-012	Expired reset link	Open expired reset link	Expired URL	Expired link message should display	As expected	Pass
PR-013	Already used reset link	Open reset link after password reset	Used URL	Used link should not work again	As expected	Pass
PR-014	Weak new password	Enter weak password	abc	Weak password validation should display	As expected	Pass
PR-015	Password mismatch	Enter different passwords	Pass@123 / Pass@124	Mismatch validation should display	As expected	Pass
PR-016	Valid password reset	Enter matching valid passwords	Pass@1234	Password should reset successfully	As expected	Pass
PR-017	Login with old password	Try old password after reset	Old password	Login should fail	As expected	Pass
PR-018	Login with new password	Try new password after reset	Pass@1234	Login should succeed	As expected	Pass
PR-019	Back button behavior	Use browser back after success	Browser back	User should not return to active reset form	As expected	Pass
PR-020	Multiple reset requests	Request reset link multiple times	Same email	Only latest link should be valid	As expected	Pass
